Part X - FIN 48 Footnote

The Hospital and Foundation are not-for-profit corporations and are tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code. The Segregated Portfolio intends to conduct its affairs in a manner in which it will not be subject to U.S. federal income tax or Georgia income tax. The remaining wholly owned subsidiaries are considered disregarded entities and are included in the Hospital's tax filings. Therefore, no provision for federal income taxes has been made in the accompanying consolidated financial statements.

The Hospital and Foundation apply accounting policies that prescribe when to recognize and how to measure the financial statement effects of income tax positions taken or expected to be taken on its income tax returns. These rules require management to evaluate the likelihood that, upon examination by the relevant taxing jurisdictions, those income tax positions would be sustained. Based on that evaluation, the Hospital and Foundation only recognize the maximum benefit of each income tax position that is more than 50% likely of being sustained. To the extent that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the position. Should any such penalties and interest be incurred, they would be recognized as operating expenses.

Based on the results of management's evaluation, no liability is recognized

Part XIII Supplemental Information *(continued)*

in the accompanying balance sheets for unrecognized income tax positions. Further, no interest or penalties have been accrued or charged to expense as of December 31, 2024 and 2023 or for the years then ended. The Hospital and Foundation's tax returns are subject to possible examination by the taxing authorities. For federal income tax purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns

Facility 1, Upson County Hospital - Part V, Line 3e

The prioritization of significant health needs of the community is identified and the methodology for prioritizing each need is described on pages 19-22 of the 2024 CHNA. Mental health and chronic diseases were identified as the top priorities that will be addressed in this 3 year CHNA cycle.

Facility 1, Upson County Hospital - Part V, Line 5

Upson Regional defined Upson County as the community for purposes of the CHNA. This definition was used since the county is the Hospital's primary service area.

A multi-faceted approach was used to gather information about the health needs of the community and to develop priorities for health improvement. The process focused on gathering and analyzing secondary data as well as obtaining input from community members to identify and define significant health needs, issues, and concerns.

Both quantitative and qualitative methods were utilized to gather data. Upson identified community leaders, partners, and representatives to include in the CHNA process. Individuals, agencies, partners, potential partners, and others were requested to work with the hospital to 1) assess the needs of the community, 2) review available community resources and 3) prioritize the health needs of the community. Groups or individuals, who represent medically underserved populations, low-income populations, minority populations, and populations with chronic diseases were included. Community stakeholders are people invested or interested in the work of the hospital, people who have special knowledge of health issues, people important to the success of any hospital Community Health Needs Assessment or health project or are formal or informal community leaders. Appendix 1 of the 2024 CHNA lists the organizations and representatives invited to participate in an electronic survey and/or attend the Community Health Summit.

Facility 1, Upson County Hospital - Part V, Line 11

Information gathered from surveys, stakeholder interviews, discussions with the hospital leadership team, review of demographic and health status data, and hospital utilization data were used to prioritize the health needs of the community.

URMC provided a written report of the observations, comments, and priorities resulting from the stakeholder interviews. The Community Health Summit team reviewed this information, focusing on the identified needs, priorities, and current community resources available.

Leadership debated the merits and values of these priorities, and considered the resources available to meet these needs. From this information and discussions, the hospital developed the priority needs of the community, each of which are addressed separately in the Hospital's Implementation Strategy document.

Mental health and chronic disease were identified as the significant health needs and are addressed in the Implementation Strategy Report. Poverty and under insured individuals were also identified but will not be addressed due to resource limitations and lack of expertise. Other agencies and

For line 7a, costs were calculated using the cost-to-charge ratio derived from Worksheet 2 as provided in the IRS instructions.

Subsidized health services presented on line 7g were based on actual costs per the Medicare Cost Report net of associated bad debt, charity and Medicaid expense.

All other costs presented in the table were accumulated through the community benefits software CBISA.

Part II - Community Building Activities

Health professionals recruitment and local chamber/civic sponsorships address core health problems in the community.

Part III, Line 2 - Bad Debt Expense Methodology

Amounts included on Part III line 2 represent the amount of charges considered uncollectible. Pursuant to ASU No. 2014-09 (Topic 606), the amount identified as bad debt on Schedule H, Part II, Line 2 primarily represents amounts estimated at the transaction date that are considered a price concession. The System determines the transaction price based on standard charges for services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the System's policy, and implicit price concessions provided to uninsured patients. Implicit price concessions represent the difference between amounts billed and the estimated consideration the System expects to receive from patients, which are determined based on historical collection experience, current market conditions, and other factors.
